

The
Straits
International

Our Business

The Straits International Pte Ltd, founded in 2010, is a Singapore based supply chain manager specializing in agricultural and protein commodities. We originate and buy physical products from different continents and deliver them through our spectrum of services from logistics & transportation, hedging & risk management and financial services to meet different customer needs.

Our focus is on animal feeds, flour milling, food, alcohol and oils & fats industries. Our diverse customer base allows us to provide good trade flow from origins to destinations.

Through strong partnerships with our extensive originations and comprehensive range of agricultural commodities, we are able to offer varieties of products to our customers. Coupled with efficient handling and responsive support, we are committed to meet customer's demand and expectations.

Our Values

Transparency : Ensuring Transparency and Accountability in Various Engagements

Services : Excellent and Efficient in Executions

Integrity : Building Trust with Customers and Suppliers by doing what is Right and Fair

Our Focus

Foods

Liquor

Animal Feeds

Industrial

Vegetable Oil

Flour Milling

Our Products

Grains

Yellow Corn (Non-GMO, GMO #1, #2 and #1 Cleaned & Aspirated)
Spring Wheat (Milling & Feed) Winter Wheat (Milling & Feed) • Barley (Malting & Feed)
Yellow / Red Millet • Cassava (Tapioca) Chips • Red/White Sorghum • Feed Oats

Oilseeds

Flaxseed (Linseed) • Rapeseed • Sunflower seed • Yellow Soybean
(Non-GMO, GMO #1, #2 and #1 Cleaned & Aspirated)

Proteins

Distiller's Dried Grains with Soluble (DDGS) • Soybean Meal • Fermented Soybean Meal
Soybean Hull Pellet • Corn Gluten Meal • Corn Gluten Feed • Cottonseed Meal
Cottonseed Hull Pellet • Guar Meal (Churi/Korma) • Rapeseed Meal • Canola Meal
Bakery Meal • Peanut Meal • Wheat Bran Pellet and Meal • Wheat Midds
Meat and Bone Meal • Bone Meal • Poultry by-Product Meal (Pet/Feed grades)
Hydrolyzed Feather Meal • Blood Meal • Fish Meal • Squid Liver Paste

Grain Legumes

Green Mung bean • Coriander Seed • Chickpea • Adzuki Bean

Crude and Refined Oil

Fish Oil • Squid Oil • Soya Lecithin • Crude Degummed Soybean Oil
Rapeseed/Canola Oil (Refined/Crude) • Sunflower Oil (Refined/Crude)

Others

Wheat Flour • Wheat Starch • Native Cassava (Tapioca) Starch

Yellow Corn

We Supply:

Yellow Corn: USA, India, South America, SE Asia

Applications: Corn is largely used as a primary ingredient in animal feeds and in the industrial sectors, which includes the production of ethanol, sweeteners, and other consumer products.

By-Products

Distiller's Dried Grains with Soluble (DDGS): USA, Paraguay, Canada

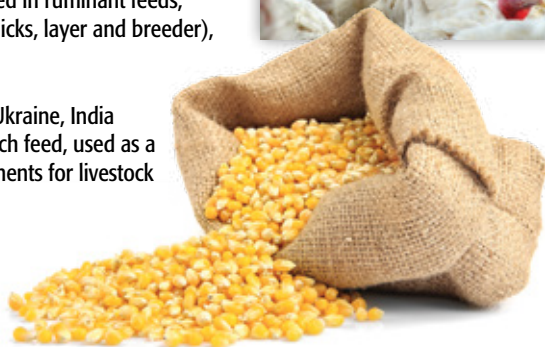

Applications: DDGS is well suited for dairy cattle, poultry and swine rations, offering a high level of protein, energy and fibre.

Corn Gluten Feed: USA, China

Applications: CGF is commonly used as a medium level protein and energy source. It is used in ruminant feeds, pet foods, poultry (replacement chicks, layer and breeder), turkey and swine.

Corn Gluten Meal: USA, China, Ukraine, India

Applications: CGM is a protein-rich feed, used as a source of protein, energy and pigments for livestock species including fish.

Wheat

We Supply:

Wheat: USA, Argentina, India, Pakistan, Black Sea (Ukraine / Moldova / Russia), Australia

Applications: Wheat is used for livestock feed and flour milling for food purpose.

By-Products

Wheat Flour: Taiwan, Ukraine, USA

Applications: Wheat Flour is widely used in the commercial industry to produce animal feeds and food for human consumption.

Wheat Bran Pellet and Meal: Taiwan, Ukraine, Moldova, Indonesia, USA

Applications: Wheat Bran Pellet is suitable for livestock feeding and very palatable to most classes of animals.

Wheat Midds: Taiwan, Ukraine, Moldova, Indonesia, USA

Applications: Wheat Midds is a good source of protein, fibre, phosphorus, and other nutrients, it is used for food purpose, as well as fodder for livestock and pets.

Wheat Starch: China

Applications: Wheat Starch has many applications in food industries, non-food industries, a feedstock for the production of fuel grade ethanol and alcohol such as beer & whisky. It is also used in aquaculture.

Yellow Soybean

We Supply:

Yellow Soybean: USA, Brazil, Argentina, Ukraine, Africa Continents

Applications: Yellow Soybean is primarily crushed to make soybean oil and the by-product soybean meal is the main protein source in many animal diets for animal feed industries. It contains significant amount of phytic acid, dietary minerals and B vitamins. For food, soybean is used in wide range of products, for example soymilk, tofu and natto.

By-Products

Soybean Meal: USA, Brazil, India, China, Vietnam

Applications: Soybean Meal is the major feed commodity and is the main protein source in many animal diets.

Soybean Hull Pellet: USA, China, Taiwan

Applications: Soybean Hulls Pellet is often reintroduced in the final oil meal in order to reduce its protein content, thus available and very valuable feeds for on-farm feeding of cattle.

Soya Lecithin: USA, Argentina, China

Applications: Soya Lecithin is used in many food applications and also used in the poultry, swine, cattle and fish feed.

Sorghum

We Supply:

Sorghum: China, Ukraine, Moldova, Paraguay, USA, Australia

Applications: The use of Sorghum ranges from feed grain for livestock to food for human consumption which includes milling, starch production, brewing and distilling.

Color: Red, White, Yellow

Rapeseed & Canola

We Supply:

Rapeseed: Ukraine, Moldova, Russia

Applications: Rapeseed is mainly used for edible oil, biofuel, industrial oil and lubricants. Rapeseed is also a valuable energy feed for livestock due to their high protein and lipid content.

By-Products

Rapeseed/Canola Meal: Pakistan, India

Applications: Rapeseed/Canola Meal is protein-rich ingredient that is widely used to feed all classes of livestock such as dairy cattle, beef cattle, swine and poultry rations.

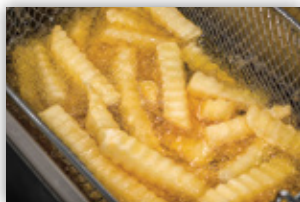

Rapeseed Oil: Ukraine, Moldova, India

Applications: Rapeseed Oil is the main source of biofuel and as cooking oil.

Sunflower Seed

We Supply:

Sunflower Seed: Ukraine, Moldova, Russia

Applications: Sunflower Seed is known for its rich content of oil and fatty composition which is ideal for bird feed. It is also suitable to be used to produce cooking oil and confectionery products for human consumption.

By-Products

Sunflower Oil: Ukraine, Moldova, Russia

Applications: Sunflower Oil is commonly used in food as frying oil, and in cosmetic formulations as an emollient.

Sunflower Meal: Ukraine, Moldova, Russia

Applications: Sunflower Meal is produced through the process of extraction is an excellent livestock feed.

Marine & Animal Proteins

We Supply:

Fish Meal: Thailand, Argentina, Peru, Chile

Applications: Fish Meal is a generic term for a nutrient-rich feed ingredient. It is primarily used in diet for pet food, feedstuffs for aquaculture and a high-quality organic fertilizer.

Squid Liver Paste: China

Applications: Squid Liver Paste is an essential feed for shrimp, aquatic creatures and livestock.

Poultry By-product Meal: USA, Saudi Arabia, Europe

Applications: Poultry By-product Meal is used as pet food, livestock and aquaculture industries.

Blood Meal: USA, Europe

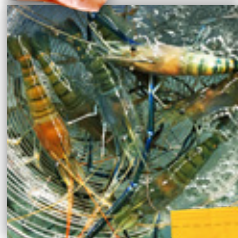

Applications: Blood Meal contains mostly protein and is used to supplement diets based on cereal grains, plant by-products and forages. It has been shown to be a satisfactory replacement for other protein sources in various animal production diet for dairy cattle, beef cattle, sheep, swine, poultry and aquaculture industries.

Hydrated Feather Meal: USA, Europe

Applications: Hydrated Feather Meal is a by-product of broiler, turkey and poultry processing operations. It is one of the highest sources of non-synthetic nitrogen available and can be used for animal feeds and organic fertilizers.

Meat and Bone Meal: USA, Europe, Australia, South America

Applications: Meat and Bone Meal is primarily used in the formulation of animal feeds to improve the amino acid profile of the feed, mainly used for pet food, livestock, and aquaculture industries.
