

BISCUIT MEAL

Proudly brought to you by
The Straits International Pte. Ltd.

PRODUCT INTRODUCTION

Our Natpure Biscuit Meal is processed from biscuits, potato chips, cookies and other bakery food products originally made for human consumption. The biscuit meal undergoes a manufacturing process that further increases its feed digestibility and efficiency when compared to unprocessed grains and other protein products. In addition, it is high in energy and highly digestible, making it an excellent choice for supplementary feeding or as an ingredient in formulated animal feeds.
